TRIDENT

We are a Polish manufacturer of laminate motorboats. We have been building out experience since 2007. We specialise in boats of up to 6.5 m in length. Our vessels are characterised by high-quality workmanship and attention to the smallest detail.

THE IDEA

Our products are dedicated to people who value practicality, safety and, above all, comfort when using and transporting a boat.

When manufacturing each vessel, we pay particular attention to the individual needs of users. Thanks to this personalisation our customers can fall in love again, and sometimes even relive their youth. We make every effort to ensure that each owner of our boat feels luxurious in it and enjoys having it.

We create each boat so that we are proud of it.

Trident 480 OPEN

4,80 m

1,85 m

max. 5

60 hp
(44.1 kW)

C

350 kg

Trident 480 OPEN is a boat for full-day trips. A distinctive feature of the vessel is the open deck which provides freedom of movement and incredible buoyancy. There are as many as 6 lockers on board for storing various types of equipment or luggage, while also ensuring the safety of passengers when moving on the boat. The possibility of installing a powerful engine of up to 60 hp makes the boat perform excellently on the water and provides a lot of fun when using it.

Trident 520 CLASSIC

5,20 m

2,05 m

max. 6

50 hp
(36.8 kW)

C

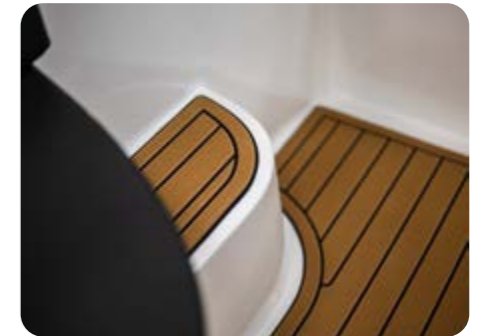

350 kg

Trident 520 CLASSIC was designed for peaceful boating in nature. Thanks to its stability and space, the boat is ideal for outings with friends or family. The decorative rope fixed around the hull gives the boat a unique character, and the Vendeck teak applied to the deck sets it apart from other boats of the same class. Tailor-made sprayhood and port cover appropriately protect against rain and other external factors, while allowing the boat to be quickly and easily prepared for the cruise, as soon as you arrive at the marina.

Trident 530 SUNDECK

5,30 m

2,07 m

max. 6

115 hp
(84.6 kW)

C

520 kg

Trident 530 SUNDECK is a boat with functionality found in larger vessels with an outboard engine. The dimensions of the boat allow you to achieve great nautical properties, giving a lot of pleasure from using it. Perfectly shaped strong V-shaped bottom gives you full control of the boat, excellent performance and has a positive effect on fuel economy.

Trident 530 Sundeck is the vessel for you.

Trident 530 SPORT

5,30 m

2,07 m

max. 6

115 hp
(84.6 kW)

C

500 kg

Trident 530 SPORT is a combination of a cabin and open boat. The modern, sporty design makes the vessel stand out on the water. The spacious cockpit as well as the functional deck is a solution highly recommended for those who value comfort and flexibility. Thanks to the reliable V-shape of the hull, the boat is safe and allows you to experience the excitement and fun of boating. Trident 530 Sport will be suitable for one-day trips and the extensive equipment will meet the needs of the owner.

800 kg

The Trident 630 OPEN has a lot to offer in the sports boat class. The fast, manoeuvrable unit behaves perfectly on the water. Extensive basic equipment provides everything what you expect from a boat of this type. There is plenty of space on board plenty of space on deck to make the most of thanks to the central steering position. Optionally, at the front of the boat you can set up a larger than average sunbathing area (2.20 x 1.70 m), which can be used by those thirsty for sun and fun.

The version with HARDTOP is ideal for fishing trips.

Trident 640 SUNDECK

6,40 m

2,40 m

max. 6

150 hp
(110.32 kW)

C

800 kg

The Trident 640 Sundeck is a sporty yet family-orientated unit with a spacious cabin for 2 people. It is characterised by its well thought-out, ergonomic design. Thanks to its large front deck, it is ideal for weekend trips to sunny areas. The high side ensures safety when moving around in the cockpit. The well-designed hull provides good nautical properties and stabilises the boat at high speeds. Adding our quality in making boats, for which we are famous, we came out with a really good vessel.

vinylpex®

The upholstery fabric is designed specifically for the yacht and outdoor industry. The reliability of this product in difficult weather conditions is ensured by a special protective coating, thanks to which the material is resistant to sun stains and sea water. An effective protective system against mold and fungi is provided by an antibacterial and antifungal additive. High abrasion class, confirmed by tests, is a guarantee of comfort of use for many years.

Weight: +/- 695 g/m²

Vendeck are lightweight non-slip foams that we recommend to the customers of our boats. Their main advantage, in contrast to artificial teaks, is a low heating coefficient, which translates into their service life. The panels are safe for children and animals, as they do not cause allergies. The foams also have great soundproofing properties, which is why they can be used in anchor chambers, lockers or other places where various types of equipment and devices are stored.

- Thickness:** 6 mm
- Weight:** 140 kg/m³
- Composition:** polyethylene PE or high-tech polymer mixtures
- UV filter:** yes
